

Frequently Asked Questions: Grant Notifications

September 29, 2026

1. I applied for CalRHT funding and saw the funding announcement. Does that mean my application was selected?

No. The funding announcement provides a general update on CalRHT funding and does not confirm the outcome of an individual application. Applicants will receive information about their own application through the grants management system (Submittable).

2. I applied for CalRHT funding but have not received a notification about my application. What should I do?

If you have not received a notification about your CalRHT application, please check the email address associated with your application, including your junk or spam folder.

3. I received a notice that my application was conditionally selected for CalRHT funding. What does that mean?

A conditional selection means your application has been selected for CalRHT funding and, like all selected applicants, is subject to the completion of requests for information as outlined in your notification. Your award is not final until a subrecipient agreement is signed and executed.

4. My application met eligibility requirements and remains under consideration for a subaward. What does that mean?

This means your application is still under review and a final funding decision has not yet been made. You will be notified regarding the status of your application by late October 2026. No action is required from you until further notice.

5. I received a notice that my application has been selected but is subject to modifications. What does that mean?

An award subject to modifications means your application has been selected for CalRHT funding but requires revisions which are outlined in your notification email.

Please review your notification carefully for details about the required modifications. You must respond to the changes by the stated deadline or the notice may be withdrawn. Revisions are to be submitted through the grants management system, Submittable.

The CalRHT program is supported by the Centers for Medicare & Medicaid Services (CMS) of the U.S. Department of Health and Human Services (HHS) as part of a financial assistance award totaling \$233,639,308.46 with 100 percent funded by CMS/HHS. The contents of those of CalRHT and do not necessarily represent the official views of, nor an endorsement, by CMS/HHS, or the U.S. Government.

6. What if my organization cannot proceed with the proposed changes?

If your organization cannot accept the required modifications, HCAI may withdraw the Notice of Intent to Award and may offer funding to another applicant.

7. I received a notice that said my application was not selected. What does that mean?

A non-selection notice means the application was not selected for funding during this budget period. This determination applies only to the current funding round; you may apply for future opportunities.

8. Will I receive details on the reasons for non-selection?

To ensure a fair and consistent process for all applicants, we are unable to provide individualized details beyond the non-selection reason included in the notice, but we appreciate the time and effort each applicant invested in applying and encourage you to apply for future funding opportunities.

9. Once I receive my award notice, can I begin incurring expenses associated with my application?

No. Do not incur expenses related to CalRHT funding until the subrecipient agreement is fully executed. Costs incurred beforehand are not eligible for reimbursement. Agreement terms must be met before funding payments can be issued.

10. What steps must be completed before a subrecipient agreement can be executed?

Before a subrecipient agreement can be executed, applicants must complete the following:

- All outstanding conditions must be met satisfactorily
- Completion of HCAI's Subrecipient Information and Risk Assessment
- Completion of the subrecipient agreement using HCAI's template
- Ensure both parties execute the subrecipient agreement

11. What happens if I don't respond by the stated deadline?

If an applicant does not confirm their intent to proceed by the provided deadline, HCAI may withdraw the notice and offer funding to another applicant.

12. Can agreement terms change after an award?

No. Once a subrecipient agreement has been signed, the terms under that agreement must be met for funding to be issued.

13. Will CalRHT help organizations find partners or implementation support?

Yes. CalRHT has established a Rural Technical Assistance Center (RTAC) which connects eligible rural health organizations with technical assistance, training, peer-learning, and practical tools to support implementation of CalRHT-funded programs

and rural health transformation activities. More details will be shared with subrecipients as resources become available.

14. Where can I find future CalRHT funding opportunities?

Future funding opportunities will be posted to the CalRHT website:
<https://hcai.ca.gov/rural-health/calrht>.

15. Who can I contact with questions?

- Reply directly to the email notice
- Email info@calruralhealth.org
- Call 855-CAL-RHTP (855-225-7487)
